Summary

Data Science student skilled in Python, SQL, and data analysis. Strong in algorithms and problem-solving, seeking opportunities to apply data science and machine learning skills in real-world applications.

Technical Skills

- Languages: C++, Python
- Python Libraries: Pandas, NumPy
- Tools: Jupyter Notebook
- Data Analysis: Data Wrangling, Exploratory Data Analysis (EDA), Data Visualization
- Data Visualization Tools: Matplotlib, Seaborn
- Machine Learning: Regression, Classification, Clustering, Model Evaluation (Accuracy, Precision, Recall, F1-Score)
- Generative AI: Transformer Models, HuggingFace, Retrieval-Augmented Generation (RAG)
- Database: SQL
- Core Subjects: DBMS, Design and Analysis of Algorithms

Education

Pranveer Singh Institute of Technology — B.Tech in Data Science (Oct 2023 – July 2027) | CGPA: 7.46

Mary Jesus Education Center(ISC)— 12th (2022) | Percentage: 80%

Mary Jesus Education Center(ICSE)— 10th (2020) | Percentage: 88%

Projects

AI Flagship: Explainable Transaction Risk Intelligence Platform **Github**

Technologies Used: Python, Scikit-learn, XGBoost, Pandas, NumPy, Flask, Streamlit, Pickle

- Developed an end-to-end AI system to analyze and flag suspicious financial transactions using Machine Learning
- Built a Flask-based REST API to serve real-time predictions from trained models
- Designed a hybrid risk assessment approach combining rule-based logic with ML-based probability outputs
- Created an interactive Streamlit dashboard for transaction analysis, monitoring, and testing scenarios
- Implemented explainable AI to generate human-readable insights behind each prediction
- Engineered key features such as transaction amount, time, merchant category, and behavioral signals for model input
- Integrated frontend and backend to enable seamless real-time inference and user interaction

Certifications

- **IBM Data Science Professional Certificate** – Coursera | March 2026 | Certificate

Achievements

- Solved 100+ DSA problems on Leeetcode
- Solved 20+ DSA problems on GeeksforGeeks
